

### **Postdoctoral Researcher Position at the McMaster Institute for Transportation and Logistics (MITL)**

The McMaster Institute for Transportation and Logistics invites applications for a Post-doctoral position to support our research in emerging and transformative transportation systems. Research areas of interest include, but are not limited to: Connected and Autonomous Vehicles; Electric Mobility; Shared Mobility; Transportation Data Analytics and Smart Cities.

Applicants are sought who have a track record involving innovative and collaborative research in disruptive transportation systems. The successful applicant will have (i) a keen interest in understanding new technologies and their impacts, (ii) a good understanding of quantitative and qualitative research approaches and (iii) a willingness to work in a multi-disciplinary environment.

This is a two year position, with possibility of renewal. Applications will be accepted until the position is filled. All qualified candidates are encouraged to apply. However, Canadian citizens and permanent residents will be given priority for this position. Applicants must have a recent PhD in Engineering, Science, or another relevant field, and be in a position to complete all requirements of their PhD before taking up employment with MITL.

MITL, founded in 2007, is a University Institute supported by the private and public sectors and working with business and all three levels of government to address transportation and logistics challenges and with a mission to move Canada and the world toward transportation behaviours that are measurably more sustainable. MITL's key focus areas include Transportation (i.e. goods and people movement), Modelling & optimization (e.g. the interplay between transportation and land use; impact analysis, route analysis), and Government & Policy (e.g. decision support; transportation and land use planning).

Applicants are asked to send their curriculum vitae and a statement detailing research interests to Dr. Saiedeh Razavi, Director, McMaster Institute for Transportation and Logistics, McMaster University via e-mail at [mitl@mcmaster.ca](mailto:mitl@mcmaster.ca).

McMaster University is strongly committed to employment equity within its community and to recruiting a diverse faculty and staff. The University encourages applications from all qualified candidates including women, persons with disabilities, First Nations, Metis and Inuit persons, members of racialized communities and LGBTQ-identified persons. If you require any form of accommodation throughout the recruitment and selection procedure, please contact the Human Resources Service Centre at Extension 222-HR (22247). To comply with the Government of Canada's reporting requirements, the University is obliged to gather information about applicants' status as either Permanent Residents of Canada or Canadian citizens. Applicants need not identify their country of origin or current citizenship; however, all applications must include one of the following statements: Yes, I am a citizen or permanent resident of Canada or No, I am not a citizen or permanent resident of Canada.
